

agrigip *micro*

Micronized corrective agricultural gypsum

GYPSUM-BASED

Agrigip Micro

Micronized corrective agricultural gypsum

TECHNICAL FEATURES

Calcium Sulphate

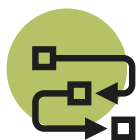

Granulometry	< 100 μ
Composition	$\text{CaSO}_4 \cdot \text{H}_2\text{O}$

TITLE OF QUALITY

In accordance with Act No 748 of 19 October 1984

CaO	27%
SO₃	38%
Impurity	2%
Water of crystallization	21%
Umidity	2% max.
Specific weight	1,4 Kg/liter

METHOD OF USE

Alkaline corrector

Attenuates the alkaline reaction of soils with a high pH value (clayey limestone soils).

Fertiliser supplement

Improves the effectiveness of chemical fertilizers phosphatic, potassium and nitrogen and promotes the uniformity of spreading.

Fertilizer

It promotes nitrification and activates the functions of microbes on legumes. Promotes the dissolving of potash, essential food for plant nutrition. Fixes ammonia.

Barn cleaner

It prevents the development of carbon dioxide, a pungent and penetrating odor, contributing to the safeguarding of animal health. It destroys the germs of infectious diseases of livestock.

RECOMMENDED QUANTITIES

From 300 to 500 kg per hectare/ HI

PACKAGING

Paper bags kg. 17, bulk, big bag.
